Benshes

Benches

Our street seating arrangements offer a variety of options in terms of materials and forms. Versatile designs include an assortment of marble, wood, steel, aluminum, and concrete – creating pure elegance in public seating.

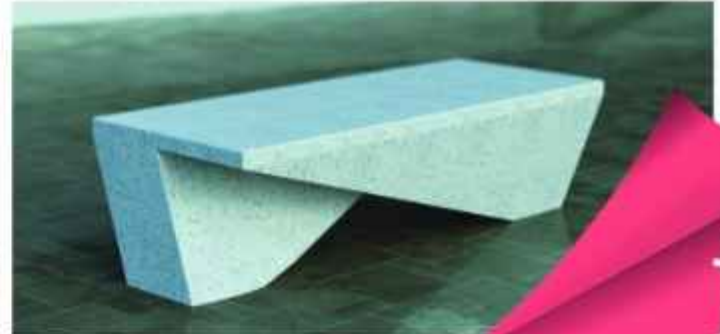

Bench NeoBarcino

Simple and smart, the Neobarmino Bench is one of the most popular products in the BENITO URBAN Street Furniture range. The Neobarmino Bench can be supplied in FSC wood or in technical wood.

Concrete benches

The best solution for harsh environments, extreme temperatures and seawater salinity

Bin made with the waste you put in the bin

Robust and adaptable to any environment

Litter Bins

Large capacity
 With stainless steel ashtray
Customisable

Litter Bin Loma

This bin belongs to the sustainable design street furniture collection. Entirely made of recycled polymers, recovered from post-consumer plastic. Attractive design and high functionality. Resistant to UV rays, water and bad weather conditions. Thanks to its features, GEA is a bin that can adapt to all kinds of public spaces.

Litter Bin Fija Aro Selectif

Litter bin made of steel with Ø0 mm holes treated with Ferrus, a protective process that guarantees high resistance to corrosion.

Urban Lighting

Avenues, squares and pedestrian areas, parks, historic centres, low speed streets...

APPLICATIONS:

- Urban and residential areas
- Parks and green spaces
- Maritime promenades
- Pedestrian areas
- Cycle lanes and ≤ 30 km/h areas

Luminaire Deco Lira

Lighting

ZEBRA light point, the solution for the lighting of pedestrian crossings, designed to reduce the number of pedestrian impacts and increase security.

A complete road luminaire family at the forefront of LED technology

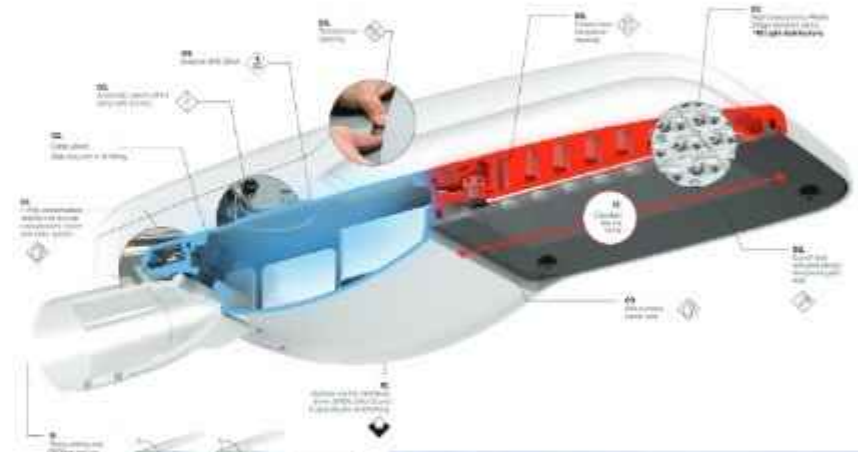

High-efficiency up to 147 lm/w

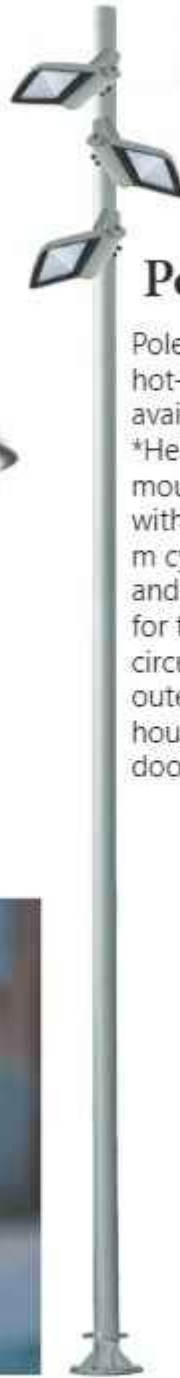

To cover all type of applications. Ready 4IoT

FUSION

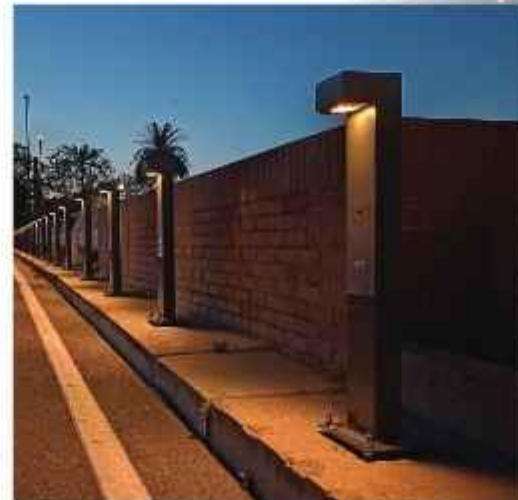

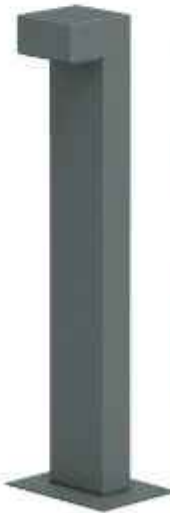

The housing can be removed from the pole without tools. The preferred one by installers.

Pole Tekno

Pole made of S-235-JR hot-dip galvanised steel available in two formats: *Height up to 8 m for TOP mounting of the luminaire with Ø60 mm; *10 and 12 m cylindrical ones are only and exclusively designed for the installation of circular floodlights with outer equipment (can be housed in the 3 service doors available)

Planters

Unique planters
available in several sizes,
materials and finishes

Maximum durability
Innovative and maintenance-free design for
public and private spaces

www.iou-design.com

For natural and urban environments

A large variety of models made of treated wood
available in several sizes

Planter made of steel treated with Ferrus, a protective process that guarantees high resistance to corrosion.

For natural and urban environments

Planter Lisa

Planter made of precast textured granite grey concrete. May be positioned individually or in groups.

Recommended anchoring: Free-standing.

Bollard

Bollard Petrus LED

A precast reinforced concrete bollard with a fine pickled finish, designed to prevent the passage of vehicles on a permanent basis. Features a stainless steel plate top with a brushed finish. Optional LED luminous ring for maximum visibility due to its red/green traffic light-type signals.

FIXED or REMOVABLE bollards

Bollard made of iron treated with Ferrus, a protective process that guarantees high resistance to corrosion.

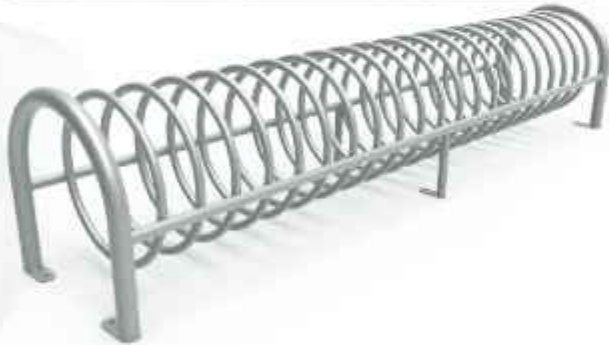

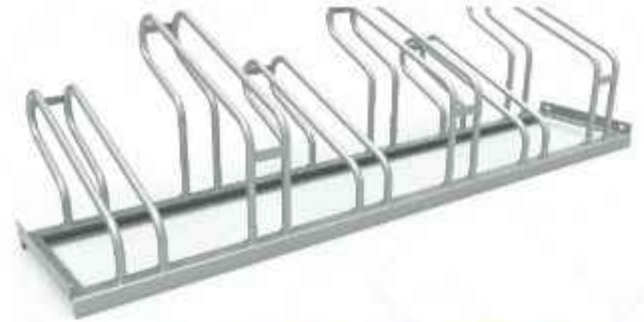

Special shaped bollards can add security and aesthetic appeal to any setting. These round or cylinder shaped bollards are constructed of steel rebar encased in concrete to provide a strong appearance and help guide traffic flow. You can choose from a variety of textures, colors and finishes. Mounting options A) anchor bolts or B) pipe bollard.

**The SAFEST
SOLUTION
to park your
bicycle**

Handrail & Fencing

MOVABLE Stainless Steel Handrail & Steel with powder coated paint fire reset

Fencing for playgrounds

Excellent solution to delimit play spaces in schools and nursery schools.

Fence Protector

Do you need to fence an urban space?

Contact us for a bespoke solution!

STAIR HANDRAILS SS

MAKING DIY PERGOLA PLANS EASY

Relaxation. Elegance. Beauty.

Enjoy a quiet dinner with friends and family on your patio, comfortably sitting in your own outdoor oasis. Come home after a hard day's work and enjoy a cold beverage in the dappled shade cast by your new pergola, designed to your exact specifications.

**Large range of
playground and sports
equipment**

playground and sports equipment

Street Workout

Street Workout elements made of metallic materials with circular profile posts and painted aluminum flanges to guarantee professional performance and product adaptability

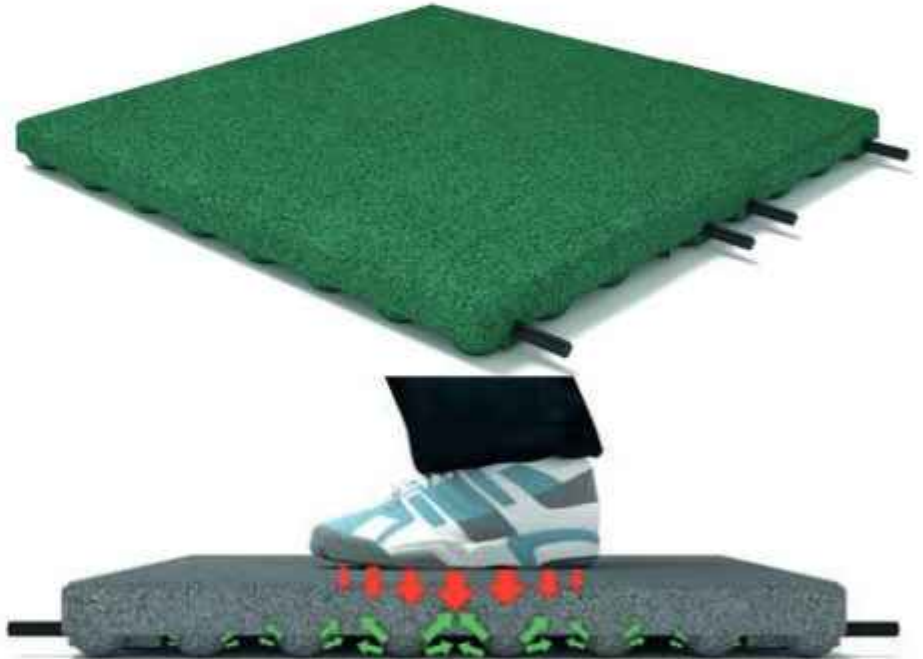

playground Rubber EPDM & Tiles

FLEXIZONE

PLAYGROUND RUBBER TILES

SBR and EPDM rubber tiles are designed for outdoor playgrounds and play zones. They demonstrate high impact attenuation properties.

High impact attenuation properties, special internal structure initiating additional elastic forces, guaranteed HIC within the range 3.0 ÷ 1.3 m.

SBR tiles are integrally coloured which prevents warping and corners curling.

Intrloc Paving Floors

interlock paving floors

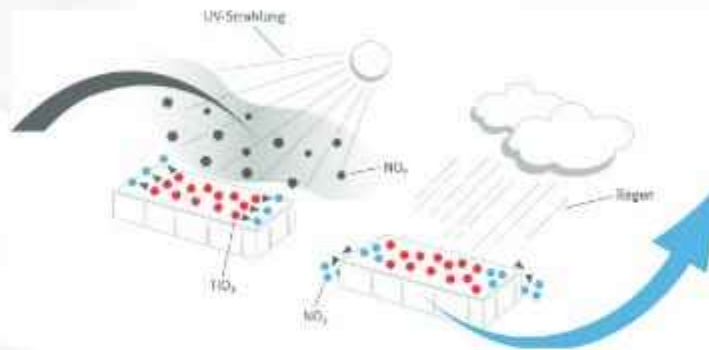

Interlock, or what is called interlocking paving floors, is now considered one of the best types of flooring used today, because of its many uses and countless advantages, which have made many people want to buy it, even the interlock companies that are currently competing to install it. We all know that interlock tiles It is a flexible tile that differs from other traditional types of paving, and it can be used in more than one form. It is also eye-catching as it adds a glimpse of beauty in addition to its durability in paving. Therefore, it was worth noting to learn more about interlock tiles and their importance, and let us in this article, dear reader. We learn everything related to interlock tiles, to see how you can benefit from this type of flooring.

GERMAN TECHNOLOGY

BlueAir® TECHNOLOGY

Harmful nitrogen oxides (NOx) in the air will turn during sunlight into mineral nitrate on the surface of the stone. It is the same principle, by which plants enhance air quality. This photocatalysis actively reduces air pollution and works unchanged throughout the life cycle of the stone.

Properties

- * Particularly finely coordinated, homogeneous colour shades.
- * Colouring of the surface mainly by raw materials from regional stone quarries.
- * Frost and de-icing salt resistant and Slip resistant. Climate-neutral and CO2-certified production.
- * Wide range of sizes. Stone thicknesses from 5 to 18 cm possible. Available with and without chamfered edge.
- * Special stone hardening process through climate-controlled surface finishing.

Color

STEEL DOORS

PRODUCT DESCRIPTION

Exceedingly cost-effective and ready to use steel doors with frames. This exclusive steel door has several significant features. These doors serves the purpose of both residential steel door and commercial ones. Despite the fact that this superior-grade steel give extraordinary protection, they are eco-friendly and easy to maintain. They are veracious for all weather conditions. Also, there is no climatic deformation as in doors made of wood.

STEEL DOOR LEAF AND FRAME TECHNICAL SPECIFICATIONS

- 1 DKP corrugated steel sheet inside of the leaf
- 2 The Lock System is a Monoblock Lock System with 1 Points and 2 Rounds Locking System with 1 Points and 2 Rounds Locking Feature (Also, it can be used in the Semi-central System, including the top of the door, depending on preference.)
- 3 Rosette
- 4 4 cm fire resistant rockwool inside the leaf for insulation
- 5 Corrugated supportive steel sheet
- 6 Depending on preference and the climatic conditions in which the door will be used, 10 mm thickness MDF in various coatings and patterns or other materials with exterior resistance (Aluminum Composite, Stone Surface Betopan, etc.)

1. 采用进口优质铝材，经CNC精密加工而成，表面光滑，色泽均匀，具有良好的耐腐蚀性和抗老化性能。

2. 采用先进的阳极氧化工艺，使铝材表面形成一层致密的氧化膜，能有效防止铝材被氧化和腐蚀，延长使用寿命。

3. 采用先进的电泳涂装工艺，使铝材表面形成一层均匀的电泳漆膜，能有效防止铝材被氧化和腐蚀，延长使用寿命。

4. 采用先进的氟碳喷涂工艺，使铝材表面形成一层致密的氟碳漆膜，能有效防止铝材被氧化和腐蚀，延长使用寿命。
