TAPA URBAN T2070 CON SISTEMA DE CIERRE ELASTIC

REGARD URBAN AVEC SYSTÈME DE FERMETURE ELASTIC | URBAN COVER WITH ELASTIC LOCKING SYSTEM

El sistema elastic3 consiste en tres pinzas elásticas integradas en la tapa, dos en la parte superior y una integrada de forma magistral y bajo patente en la zona de la bisagra. Con este innovador y patentado sistema elastic3 BENITO da un paso más en la eliminación total de ruidos para conseguir un mejor confort de nuestras ciudades.

Le système elastic3 consiste en trois pinces élastiques intégrées sur le couvercle, deux sont placées sur le dessus et la troisième à l'intérieur dans la zone de la charnière. Grâce à cet innovant système breveté, BENITO fait un pas de plus vers la suppression totale du bruit afin d'améliorer le confort de nos villes.

The elastic3 system consists of three elastic clamps built into the cover: two on top and the third one built into the hinge area. Thanks to the innovative and patented elastic3 system, BENITO takes another step towards the complete elimination of noise to provide greater comfort in our cities.
